ON-Q / LEGRAND HOME NETWORK PRODUCTS

CONFIGURE CUSTOM NETWORKS INSTANTLY!

ON-Q Home Network Center is the fast, flexible way to create any type of home network. Just click in your choice of video, audio, computer network, phone, and power modules for a perfectly tailored solution. Upgrade easily any time.

- AC power outlet knockout for duplex
- Flush and surface installation options
- UL listed for fire and security alarm equipment
- Venting allows for superior heat dissipation
- Made in the USA

Create a video network that can receive and redistribute antenna, CATV, satellite, DVD, VCR, and camera signals to any television - anywhere in the house.

Benefit from the safety of home security by installing a camera module that lets you monitor up to four security cameras from any home TV set.

The audio distribution module provides CD-quality audio to any four rooms in the house.

Computer modules allow you to build a power computer network. Link up to eight computers and peripherals at 100 megabit speeds.

Telephone modules provide virtually unlimited flexibility to distribute incoming phone calls. Up to eight incoming lines can be routed to 36 different locations with the Home Office option.

**DRILL BIT SETS  
BLACK OXIDE COATING**

48892802

These Drill Bit Sets offer convenience and heavy-duty performance on the jobsite. Milwaukee Black Oxide drill bits are designed for extreme durability and long life. The web features a thicker core than a standard drill bit to provide ultimate strength and protect against side-load breakage. A specially designed parabolic flute form clears chips and debris fast to keep the bit cool. A precision start, 135 Split Point tip starts on contact to keep the bit from walking for fast accurate holes. Excellent for drilling on curved surfaces, requires less effort to drill and is highly recommended for use with portable drills. The 3-Flat Secure-Grip shank won't slip in the drill chuck. Reduced shank diameter for use in 3/8" chucks.

**48892803**

The set comes in a resilient case and includes bit sizes 1/16", 5/64", 3/32", 7/64", 1/8", 9/64", 5/32", 11/64", 3/16", 13/64", 7/32", 1/4", 9/32", 5/16", and 3/8".

EXACT™ KNOCK-OUT PUNCHES AND DIES

Punch

Die

EXACT™ punches and dies have innovative features which bring value for the contractor. Heavy duty, they can punch holes in both mild and stainless steel material. Engraved crosshairs on the dies deliver clearest alignment with pre-drawn crosshairs. Both the tooth geometry of the punches, and slug removal ports on the dies, provide optimal slug removal. Large size ID markings on both the punches and dies permit easy punch and die selection. EXACT™ punches and dies do not require spacers.

Fluke Offers Designs for Everyday Use

Fluke meters and testers are designed to help you do your job faster, more efficiently and with greater accuracy, there is a model for every budget and application.

Infrared Thermometers

Infrared Thermometers are non-contact meters that allow you to find hotspots, locate grounds in circuits, spot energy loss sources, measure temperature from a safe distance or locate wire damage. Their applications are endless and they are an essential tool in today's electrical testing world.

Digital Multimeters

Fluke digital multimeters are built to troubleshoot and repair electrical, electronic and HVAC systems. Professional technicians rely on these professional meters because of their high degree of accuracy and durability. Find a wide selection of these meters to fit your application.

Clamp Meters

Fluke Clamp Meters allow plant maintenance and electrical professionals to take reliable readings in tight compact spaces. Used in commercial and residential applications, these meters can perform in the toughest environments while you diagnose and troubleshoot electrical problems.

Insulation Testers

Keep your power systems running smoothly with Fluke insulation testers. Electrical construction and maintenance professionals can use these testers to troubleshoot and add to their preventive maintenance program.

**ADVANCED ELECTRICAL TROUBLESHOOTING KIT**

The products in this kit have been specifically selected for both troubleshooting and preventative maintenance applications. The kit includes a Fluke 1587 FC 2-in-1 Insulation DMM, Fluke i400 Current Clamp, and a Fluke 62 Max+ Infrared Thermometer.

- With the Fluke 1587 FC, perform insulation tests, plus a wide-range of DMM tasks with confidence and ease
- Use the Fluke i400 with your Fluke 1587 FC to accurately measure AC current without breaking the circuit
- The Fluke 62 MAX+ Infrared Thermometer measure -30°C to 650°C (-22°F to 1202°F), is extremely accurate, and has an IP54 rating for water resistance and dust proof

### DIGITAL CLAMP METERS

CL380

CL800

The CL380 is an automatically ranging true-root mean square (TRMS) digital clamp meter that measures AC/DC current via the clamp, AC/DC voltage, DC microamps, resistance, continuity, frequency, capacitance, tests diodes via test-leads, and temperature via a thermocouple probe.

The CL800 is a digital clamp meter with automatically ranging true mean squared (TRMS) technology for increased accuracy. The CL800 includes carrying pouch, test leads, thermocouple with adapter and batteries.

### NON-CONTACT VOLTAGE TESTERS

NCVT2

NCVT3

The dual-range NCVT-2 detects low voltage (12-48V AC) in addition to standard voltage, and is perfect for use in security, entertainment, communications, environmental control and irrigation systems.

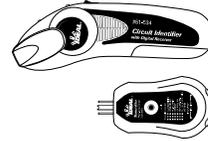

The NCVT-3 detects 12-1000V AC and includes a bright LED flashlight that illuminates dark or dimly-lit work areas. The NCVT-3 is rated IP67: dustproof/waterproof and can withstand a 6.6 foot drop.
